The Army List had been nearly prepared for the press when the late call was issued for 300,000 more volunteers. It has been kept open sufficiently long to give, in addition to regiments already organized, a list of the new regiments forming in these States, with their officers as far as known. No small share of the public interest will be realized, therefore, in the exhibit of the recruiting now in prog-

From this brief review of the state of public sentiment, it will be seen that the remedy
is plain and simple, and consists of two lagredients, first: A vigorous war policy; the employment of all chases of men willing to fight
to the Union without distinction of colorforseting on the servest or expulsion of the
property, and the arrest or expulsion of the
property, and the arrest or expulsion of the
problemissaries among us.

2. To fill up the ranks by drafting, which is
the only sure and equitable mode of procuring
men. All classes, native and foreign, democrais and republicans, catholics and protestants, would contribute their equal clare to
the ranks of the army. The secundrels who
are now going about telling men to "stay at
home to vote," would find a masket put
into their own hands, and if they refused to
employ it against the rebels, they would be
treated as traitors. The loyal people of Wisconsin—the war men of all partice—are in
faver of drafting. Quit fooling and playing
at war, and give us the genuite article, say
they. Strike blows at the most vulnerable
parts of rebeldom, and make every man who
professes to be for the Union, do his part to wsuds saving it.

> HALLECK ON CONFISCATIONA Our special Washington dispatch bring the intelligence that Gen. Halleck has an ounced himself very decidedly in favor of having enacted that policy into a law, to to be expected that all loyal generals will proceed to enforce it at once, yet it is especially gratifying to hear that General Halleck has been in favor of it all the time. A new era is beginning—an era of down-right earnest war, such as the rebels have right earnest war, such as the rebels have been desting in all the time. When we shandon the spirit of peace, and com-mence aiming our bhows straight at the heart of the rebellion, we shall be sur-prised to find how easily our soldiers can put to flight the armies of the allena.

No. 51 Clark Street.

ady been made out and transmitted to Adjutant General's Office some time sinc n pursuance of the act of the special ; son of 1861.

A special Washington dispatch in V. Y. Tribane of Thursday says that "G " Turebie, for the trial of whom as Color Turchin, Gen. Buell is said by the Na eille Union to be designing the deliver of East Tennessee, has been duly come siened as irrigadist general. He was a firmed by the Senate after the chast against him, now being investigated against him, now being investigated of court martial, were made, if not after the court had been organized." Hardly as act of the Secretary of War could give more satisfaction in this community that the forwarding of Gen. Turchin's community, for its effect will be to quash Get. Don Carlos Buell's court martial, restoring Gen. Turchin to his position in the field and securing to the country his invaluable services in fighting and crushing rebellion

A court marital of colonels cannot sit in judgment on a brigadier general. Gen. Turchin's offense consists in believ-ing that peace and war cannot be carried on successfully at the same time and place. He is not the man to allow his soldlers to die of scurvy for want of vegetables while guarding the onion patch of a traitor, and it does not lie in the boots of Don Carlos tuell to restrain him from hitting a re head wherever he sees it. DISCOURAGING ENLISTMENTS. As our dispatches have already stated ertain parties in New York having bee

found discouraging enlistments, Secrets Seward has ordered United States Marsh Murray to arrest every one found in the disloyal work and place them in Port La he shall enforce the order at once and vigor only. It will be well to send a similar order and set the like official zeal in operation out this way. We are disposed to bring to light all duly accredited lostances of this form of disl'yalty, and it may be refer to a well known employe Aurora who came into this city inte to enlist, visiting the office in question G-d d-n fools to Justly astonished and indignast at such a rebuff in a quarter thus unexpected, they give the most indubitable testimeny of the fact, which is not at all weakened by the previous reputation of the individual eminently and notoriously disloyal. The case commends itself to Capt. Christopher,

and the office and the community cannot be too soon rid of this offender. War Meeting at Urbana.

There will be a grand war meeting of Chan-paign county, at Urbana, next Tuesday. A number of distinguished speakers will be present. Let the farmers come out and show that Champaign county is for the Union the last man and to the last dollar, and the last and of the chapter.
